

## Curtain fabrics

### Polyester ajouré

#### Key advantages

Lantal curtain fabrics made of 100% flame-resistant polyester have the following compelling advantages:

- **Individual openwork designs, length- and crosswise**
- **For a touch of openness in aircraft cabins**
- **Pre-coordinated or customized colors**
- **Washable**
- **Easy to pleat, permanent pleats**
- **Flame-retardant**
- **Compliance with all airworthiness requirements**

#### Properties

##### Composition

100% flame-resistant polyester. Reversible.

##### Designs and colors

This curtain type is developed jointly with the customer. Predefined or customized colors, individual, customer-specific designs for signature interiors.

##### Pleating

Heat-set pleating assures shape retention. The pleats always remain in the same good shape, even after several cleaning cycles.

##### Weight

The conditioned weight varies from 170 to 190g/m<sup>2</sup>, 5 to 6 oz/sy, tolerance ±5%.

##### Width

Approx 145 cm, 57 in

#### Specifications

##### Flammability, smoke/toxicity

Lantal fabrics are permanently flame-resistant in accordance with FAR/CS 25.853, 12 sec. vertical, and meet the Airbus and Boeing specifications for smoke and toxicity if cleaned according to Lantal cleaning recommendations.

##### Cleaning

Washable at max. 40°C or dry cleaning as per Lantal cleaning recommendations.

##### Service lifetime

The specific service lifetime depends largely on the airline's interior philosophy (colors, quality), routing (long-haul, short-haul), geographical routes, load factors and cleaning attitudes.
